## User Stories:

### **Feature 1: UI ReDesign**

Story 1: Navigation Bar Client

Point Estimate: 3

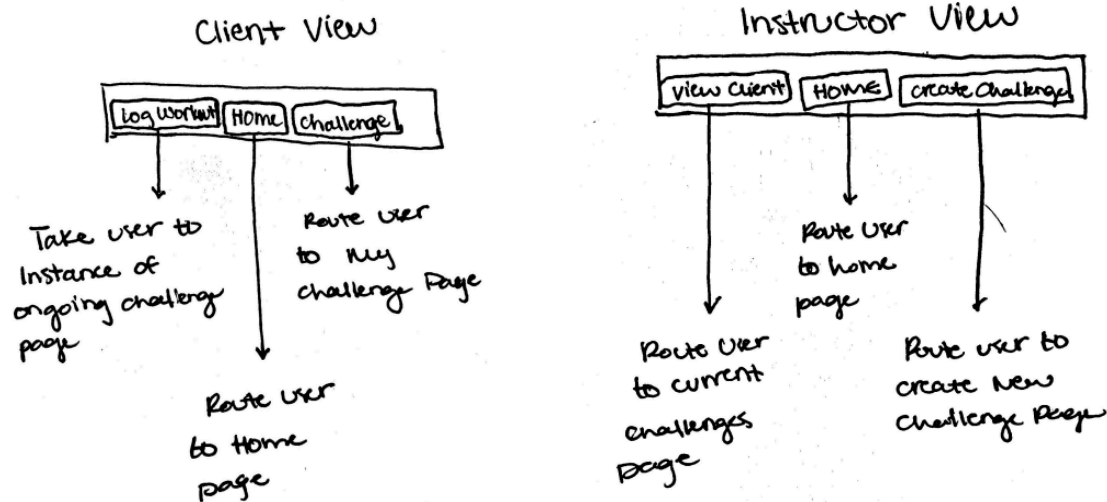

**As an** healthy challenge user

**So that I** can easily navigate within the app

**I want to** see a set of buttons at the bottom of the screen to navigate the site

#### Description:

- Add new navigation bar
- Add homepage button
- Add challenge button

## Story 2: User Interface Revamp

Point Estimate: 5

**As an** healthy challenge user

**So that I** can easily understand the app interface

**I want to** have a visually pleasing interface

### Description:

- Maintain a user friendly interface that is easy to understand
- Update UI to provide a modernized view for the user
- Ease of use for users unfamiliar with the app

## Feature 2: Mobile View

### Story 1: Update Ruby Version

Point Estimate: 3

**As a** developer

**So that I** can modify the app

**I want to** use a newer ruby version compatible with all devices

### Description:

- Update Ruby version from 3.1.0 to 3.1.4
- Resolve any issues that pertain to the version migration

## Story 2: Mobile Interface

Point Estimate: 8

**As a** user

**So that** I can view the healthy challenge app

**I want to** be able to open the application on a mobile device

### Description:

- Add a mobile view to the application
- Ensure that both mobile and web views work as expected for the user

## Feature 3: Trainee Status Management

### Story 1: Deactivate Trainee

Point Estimate: 3

**As an** instructor

**So that** inactive trainee cannot access application

**I want to** temporarily deactivate and archive trainee information for future reactivation or deletion from the system permanently

### Story 2: Reactivate Trainee

Point Estimate: 2

**As an** instructor

**So that** returning trainees can access the application.

**I want to** reactivate the trainee's account.

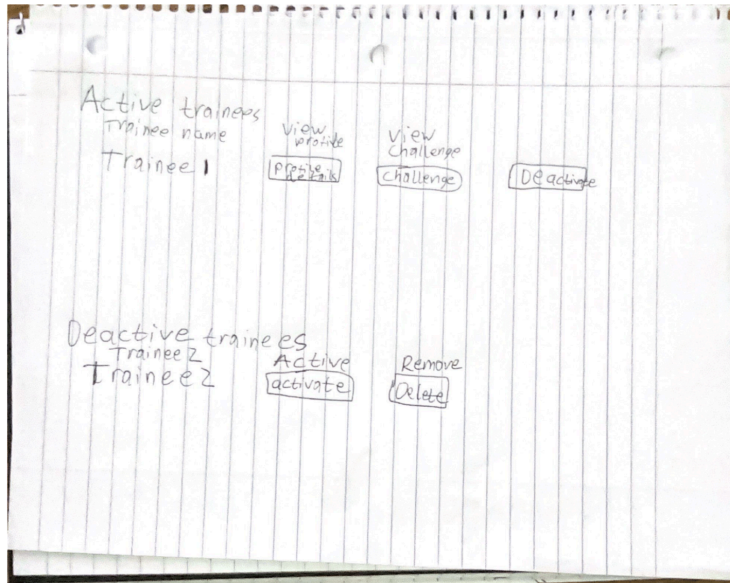

### Story 3: Destroy Trainee

Point Estimate: 1

**As an** instructor

**So that** I can remove a trainee from the database system

**I want to** delete a trainee.

## Sprint backlog

- Feature 1 Story 3: Navigation Bar Instructor
- Feature 4 Story 1: Chat / High Five Client Encouragement

## Sprint Goal:

Our customer Sheena has expressed a need for the Healthy Behaviors Challenge application to have a more personalized experience for the instructors and clients; we met with Niki Ritchey, the main stakeholder in the application, who expressed the customer's interest in adding a navigation bar which will at the least host a home page button, update the user interface, as well as provide a mobile friendly interface. Our stakeholder, Niki, provided to us the order of priority the customer has in terms of updating the Healthy Behaviors challenge as follows: adding the navigation bar, updating the UI, providing an updated interface design and given we have the bandwidth to update the ruby version. During Sprint 3 we will place emphasis on creating a navigation bar and mobile friendly interface which will allow users to navigate and understand our app with ease.

Which Stories are being pulled in:

- Feature 1 - Story 1: Navigation Bar
- Feature 1 - Story 2: User Interface Revamp
- Feature 2 - Story 1: Update Ruby Version
- Feature 2 - Story 2: Mobile Interface
- Feature 3 - Story 1: Deactivate Trainee
- Feature 3 - Story 2: Reactivate Trainee
- Feature 3 - Story 3: Delete Trainee

Story Assignment:

- F1 S1: Mackenzie Hamlett, Francis Bui
  - Time Estimate: 6 hours
- F1 S2: Chenxin Li, Syeda Fizza Ali
  - Time Estimate: 8 hours
- F2 S1: Tolga Yildiz, Francis Bui
  - Time Estimate: 6 hours
- F2 S2: Francis Bui
  - Time Estimate: 8 hours
- F3 S1: Jakob Kirby
  - Time Estimate: 3 hours
- F3 S2: Jakob Kirby
  - Time Estimate: 2 hours
- F3 S3: Jakob Kirby
  - Time Estimate: 1 hour
